

Axel Kießling
TenneT TSO GmbH

Biography

Axel Kießling is Head of Strategy & Partnerships – Digital and Flexibility Development at TenneT since July 2020. Among other things, Mr. Kießling and his team are responsible for the portfolio management of all TenneT flexibility projects. The development of new flexibility options based on decentralized producers and consumers and the search for the application of new technologies such as blockchain technology is top of the agenda.

After completing his apprenticeship as a banker and finalizing studies in business administration, Mr. Kießling started his professional career in the controlling department of an industrial company and moved in 2002 to the E.ON Netz GmbH into the planning department for network revenues. After the takeover by TenneT, Mr. Kießling became in 2011 Team Manager of Market Concepts Renewable Energy in the area of customers and markets and was later appointed Manager for Digital Transformation in Germany at TenneT.
