

IVECO joins CharIN as core member to participate in setting the industry standard for electric vehicle charging systems

Turin, October 21st

IVECO has joined the Charging Interface Initiative e.V. Association (CharIN) as a core member with the aim of supporting the widespread adoption of electric vehicles. The association counts more than 200 members – industrial and automotive companies from across the world – that share its vision of developing and establishing the Combined Charging System (CCS) as the global standard for charging battery powered electric vehicles. The association's mission also looks ahead to the future, with the aim of drawing up requirements for the evolution of charging-related standards, such as inductive charging.

“IVECO aims to play a leading role the industry's energy transition through alternative tractions, and our participation in CharIN as a core member will enable us to contribute our electromobility expertise in setting the industry standards for electric vehicles. We are looking forward to work with the association's members to support a widespread adoption of electric traction around the world.”

IVECO

IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons and, in the heavy segment above 16 tons, the Trakker (dedicated to off-road missions) and the IVECO WAY range with the on-road IVECO S-WAY and the IVECO X-WAY for light off-road missions. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
