

Vector becomes member of CharIN e.V.

Stuttgart, GERMANY, 2016-02-24 – The Stuttgart-based specialist for automotive electronics, Vector, has been granted membership in the association on February 24th 2016.

Vector Informatik is the leading manufacturer of software tools and embedded components for the development of electronic systems and their networking with many different systems from CAN to Automotive Ethernet. “We are already working on smart charge communication protocols according to ISO15118 and DIN70121 for ECU and charge spot implementations and belonging test systems for various customers worldwide since more than 5 years. Therefore the membership just emphasizes our commitment to these standards.” says Dirk Großmann Senior Manager E-Mobility Solution at Vector Informatik GmbH in Germany. By becoming a member of CharIN e.V. Vector supports the dynamic development of E-Mobility solutions within the automotive community. Together with CharIN e.V. and its members Vector will continue to develop the high quality standards to the benefit of customers.

About the Vector Group (Revised: January 2016):

Vector Informatik is the leading manufacturer of software tools and embedded components for the development of electronic systems and their networking with many different systems from CAN to Automotive Ethernet.

Vector has been a partner of automotive manufacturers and suppliers and related industries since 1988. Vector tools and services provide engineers with the decisive advantage to make a challenging and highly complex subject area as simple and manageable as possible. Vector employees work on electronic innovations for the automotive industry every day. Worldwide customers in the automotive, commercial vehicles, aerospace, transportation, and control technology industries rely on the solutions and products of the independent Vector Group for the development of technologies for future mobility.

Vector worldwide currently employs more than 1,400 people with sales of EUR 269 million in 2014. With its headquarters in Germany (Stuttgart), Vector has subsidiaries in the USA, Japan, France, Great Britain, Italy, Austria, Sweden, South Korea, India, China, and Brazil.
